

Lab-Tips® - LT670183

Small Nonwoven Polyester/Cellulose Swab with Rigid Tip

The LT670183 combines compact size with critically clean nonwoven polyester/cellulose tip made with Berkshire Durx® 670 material. It is made by wrapping the nonwoven material around the handle and fusing the

loose ends together under heat and pressure. The wrap tips combine absorptive capacity and precision cleaning for the most demanding process-specific applications. Berkshire's Durx® 670

non-woven swab has a low particle and fiber generation as well as an excellent chemical resistance.

Key Attributes

- Hydroentangled polyester / cellulose over rigid tip
- Soft and non abrasive
- Thermally bonded head

Benefits

- Low particle and fibre generation
- Excellent chemical resistance
- No contaminating adhesives
- Good absorbency

Physical Characteristics

Head Material	Nonwoven Polyester Cellulose	Handle Diameter	3mm
Head Width	4mm	Head Bond	Thermal Wrapped
Handle Material	Polypropylene	Total Swab Length	67mm
